

May 11, 2026

Dear Representative:

Farmers and ranchers across the country are facing rising costs, historically low crop prices and uneven global competition that threaten their livelihoods. Farmers need strong domestic markets that will help support long-term farm viability and grow rural communities. **Urge you to vote YES on H.R. 1346, the Nationwide Consumer and Fuel Retailer Choice Act of 2025.**

This bill allows E15 to be sold year-round, strengthening the farm economy and reducing the price of gas for consumers. Year-round E15 sales could increase corn demand by up to 2.4 billion bushels each year, which would bring certainty and support to a struggling farm economy. Additionally, E15 is typically 10 to 30 cents per gallon cheaper than regular gasoline, offers higher octane for improved engine performance, and reduces emissions. This would save consumers up to 18% at the pump.

Farmers have waited far too long for expanded market access with year-round E15. This bill would finally provide that certainty. On behalf of Farm Bureau member families across the country, we appreciate your support for America's farmers and respectfully ask you to vote "yes" on H.R. 1346, the Nationwide Consumer and Fuel Retailer Choice Act of 2025.

Sincerely,

Zippy Duvall  
President

CC:

The Honorable Mike Johnson, Speaker of the House  
The Honorable Hakeem Jeffries, House Minority Leader  
Chairman of the House Committee on Energy and Commerce, Brett Guthrie  
Ranking Member of the House Committee on Energy and Commerce, Frank Pallone
