

FARM BUREAU®

HARVEST FOR ALL

NEW YORK

The Jefferson County Farm Bureau wanted to push the limits in the "10 Gallon Milk Challenge" by purchasing 1,500 gallons of milk. After starting a GOFUNDME, The challenge received statewide support including the New York State Commissioner of Agriculture and Markets and Department of Labor Commissioner.

FLORIDA

The "Fresh from Florida Challenge" was inspired by one of the state YF&R leadership group who liked the 10-gallon milk challenge but wanted to have a positive impact on all Florida commodities. As Florida is in production year round, this ensures that a steady supply of Fresh Florida products are being donated to food banks across the state.

NORTH CAROLINA

Through "Feed the Need", North Carolina YF&R stepped up for Hurricane Florence relief. They held food drives across North Carolina, prepared meals for needy families for the holidays, packed backpacks for students, and even stocked the pantries of women shelters.
